

# Funk Drumming - Lesson Two

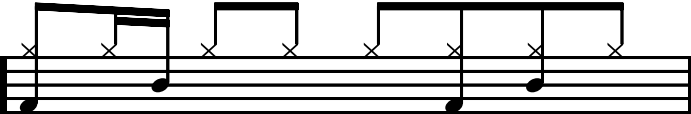

www.BreakSticks.com

This lesson picks up where the last one left off. It is still based around the basic Funk concept of hitting the first snare shot on the "a" of one, but now with the hi-hats being played as eighth notes. Once you've mastered the beats on this page you should be fairly comfortable with the style of music, and may consider creating some of your own grooves based around the same beat structure.

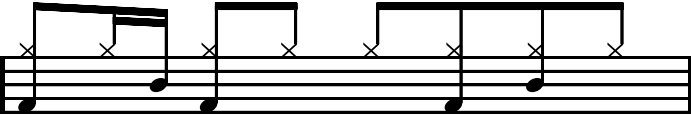

Key things to remember include:

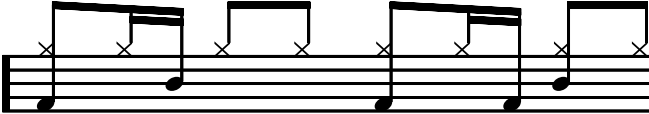

- 1) Practice the beats with a click track to train yourself to play in perfect time.
- 2) Count out loud - one, two, three four - and repeat each beat until you can play it perfectly 3x in a row.
- 2) Start out slow and slowly progress faster. Do not rush to a faster speed right away. Take your time.
- 4) Stay loose and relaxed while you play. Don't forget to breath in and out while you practice
- 5) Have fun and play some of these beats along with your favorite rock tunes.
