

# Rock Drumming - Lesson Six

www.BreakSticks.com

This lesson is designed to improve your snare control within Rock playing. All the beats in this pack page are 4/4 in combinations of eighth and sixteenth notes. The kick patterns are relatively simple, but the unique snare change-ups create some interesting grooves. This is sure to build up your snare-hand speed, control, and independence.

Key things to remember include:

- 1) Practice the beats with a click track to train yourself to play in perfect time.
- 2) Count out loud - one, two, three four - and repeat each beat until you can play it perfectly 3x in a row.
- 2) Start out slow and slowly progress faster. Do not rush to a faster speed right away. Take your time.
- 4) Stay loose and relaxed while you play. Don't forget to breath in and out while you practice
- 5) Have fun and play some of these beats along with your favorite rock tunes.
