

Rock Drumming - Lesson Ten

www.BreakSticks.com

This lesson combines all that you've learned so far into some new and unique patterns. These grooves will further enhance your independence while pushing you to continue thinking in new and creative ways. All beats are in 4/4 as eighth and sixteenth notes, and simply add new elements for you to conquer.

Key things to remember include:

- 1) Practice the beats with a click track to train yourself to play in perfect time.
- 2) Count out loud - one, two, three four - and repeat each beat until you can play it perfectly 3x in a row.
- 2) Start out slow and slowly progress faster. Do not rush to a faster speed right away. Take your time.
- 4) Stay loose and relaxed while you play. Don't forget to breath in and out while you practice
- 5) Have fun and play some of these beats along with your favorite rock tunes.
