

Single Paradiddle Lesson Two

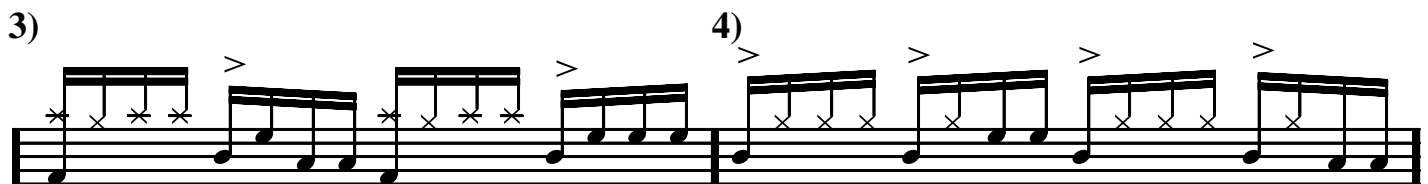

www.BreakSticks.com

This lesson takes the single paradiddle beats to the next level. You will begin playing the patterns on more drums and in more complex ways. Be sure you pay special attention to each beat, as it can be easy to scan over some of the intricacies that make up the grooves. The tom and snare patterns can be somewhat difficult at first, but as long as you work through them slowly at first - you should have no problem.

Key things to remember include:

- 1) Practice the beats with a click track to train yourself to play in perfect time.
- 2) Count out loud - one, two, three four - and repeat each beat until you can play it perfectly 3x in a row.
- 2) Start out slow and slowly progress faster. Do not rush to a faster speed right away. Take your time.
- 4) Stay loose and relaxed while you play. Don't forget to breath in and out while you practice
- 5) Have fun and play some of these beats along with your favorite rock tunes.
